BILLION DOLLARS REPORTED ON INCOME PAYMENTS.

WASHINGTON, June 18.—Saturday was the biggest tax gathering day in the nation's history. Millions, perhaps more than a billion, of income and excess profits assessments from which the Government raises most of its internal revenue, were paid June 15 to collectors in the 64 districts in such numbers that it will take two weeks to tabulate them.

Persons who failed to pay by midnight June 15, as required by law, will receive this week notices of their delinquency, with demand that they pay before June 25 in order to avoid penalties imposed after that date.

Most collectors, it is said, will waive the delinquency if checks are received next Monday or Tuesday.

Nearly four million separate payments had been made up to Saturday night, it is estimated. The payments will not be fully analyzed for a year.

Offsetting the big payments in a small degree was the payment Saturday of the second semi-annual interest allowance on the first liberty loan. This amounted to about

\$40,000,000. Reports indicated that many holders of the first bonds failed to clip the coupons and turn them in for payment. Thousands exchanged interest coupons for war savings stamps, thus reinvesting their bond earnings.

AUTO ACCIDENT CAUSES DEATHS OF PICNICKERS.

Four members of a family picnic party were killed Tuesday, when a Louisville & Nashville passenger train struck their auto which had gone dead on the track, a mile south of Bardstown.

They were Mrs. Emma Shelton, her seven-year-old daughter and her three-month-old daughter, and her son, John Henry Lee, 25 years old, the child of a former marriage.

Miss Letitia Lee, her daughter, and the only other occupant of the car, is at St. Mary's Hospital, dying with every bone in her body broken.

The National Federation of Foundry Unions has been recently established in England, with a membership of 50,000.

BEST INVESTMENT EVER DEVELOPED

LOUISVILLE BROKER TELLS WHY THRIFT STAMPS ARE NEAREST IDEAL.

GIVE ALL CHANCE TO HELP

The Baby Bond is Perfect Investment and Brings the Economy of All the People Into Fight to Free the World.

(By Harvey S. Williams, of Williams & Monroe.)

Finance and investments have developed into as exact a science as any other branch of human research, and the doctors of finance, better known as bankers and brokers, have searched as diligently for the perfect form of investments as other scientists have for perfection in their various lines. Perfection in an investment means the certainty of fixed income with no possibility of depreciation of the principal. Heretofore government bonds of the leading nations of the world have come the nearest to realizing this ideal, but since the world went to war, even these securities have shown serious depreciation in exchangeable value.

Now, however, the United States Government has issued a security which, as far as I can discover, does actually meet the requirements of a perfect investment. It is none other than the humble War Savings Stamp, or Baby Bond, and, because the original idea was to encourage war-time thrift and economy among the great wage-earning army of America, it has been generally overlooked by the investment classes. The outstanding feature of this security is that it may be redeemed at any time before maturity at full face value and about 3 per cent interest upon ten days' written notice, while if carried to maturity in 1923, the interest rate is 4 per cent compounded quarterly, which will aggregate 4 1/4 per cent annually on the investment for the entire period.

The issue of War Savings Stamps is limited by law to \$2,000,000,000, and in order to give everyone a chance to secure a part of this "safest investment ever devised," a limit of \$1,000 for each individual was set by the Government. As the total issue represents only about \$18 for each individual in the country, the wonder is that any effort should be necessary to sell them, and when the investors of moderate means once realize the advantage of this form of security, there will be a general demand for "the limit."

Above all question of selfish interest, however, stands the great fact that War Savings Stamps offer patriotic Americans an opportunity to help win the war by lending his money to Uncle Sam in amounts ranging from twenty-five cents up, and there is no doubt that the bringing of the war to our shores by the submarine campaign will greatly stimulate the desire to do so.

LOUISVILLE BANK GOES ON HONOR ROLL

The Liberty Insurance Bank, of Louisville, has again shown its patriotism and progressive spirit by going on the honor roll of the War Savings Stamp Limit Society. This is done by the subscription of every member of its board of directors to \$1,000 in War Savings Stamps, which is the limit individuals and corporations are allowed to purchase of Baby Bonds. The War Savings Committee has every hope that all banks in Louisville will soon be on this honor roll.

This step of the Liberty Insurance Bank serves to attract additional attention to its other and varied efforts to serve the Government in the present critical period. The bank now operates a very complete department for War Savings Stamps and Thrift Stamps, and it is a very busy department.

The bank has seven directors, every one of whom has bought the limit of \$1,000 of War Savings Stamps.

JESSAMINE COUNTY HAS GOTTEN BUSY

State headquarters has received the following report from Jessamine county:

"Chairman T. G. Wilds has been busy perfecting the county organization for the sale of War Savings Stamps. Already a goodly number of stamps have been placed, and Jessamine county will again show her true colors in aid of our Government and there is every reason to believe her quota will be more than bought up. This is an opportunity for the people to save and the harvest of its good results will come on the maturity of the stamps in a little less than four and one-half years. Every \$83.40 put in the June stamps matures to \$100; every \$83.40 matures to \$100. Your sowing of the seed now means the reaping of the harvest then. Jessamine county's quota is \$262,000, and we believe there is not a loyal citizen in this community who will not help put it over the top in this drive."

BUMPER CROPS PREDICTED FOR STATE AND NATION

Bumper crops of wheat, oats, rye, barley, hay and less important crops are now in sight for both Kentucky and the United States as the farmer's part in helping win the war. This has been accomplished by the farmers in spite of shortage of labor, increased cost of raising the crops, and other hindrances.

Reports on the acreage and condition of the corn, potato and tobacco crops are not yet ready for publication, but are being prepared and will be announced as quickly as reliable estimates can be secured.

Apples, peaches, pears and berries are the only crops on which full information is now available that do not show an increase in the crop prospects for this year compared to last year and the average.

Prospects for the United States crop of spring and winter wheat are now 931,000,000 bushels as compared to 650,828,000 bushels produced in 1917, while the 1918 crop in Kentucky promises to be 13,800,000 bushels, compared to 9,000,000 bushels in 1917, and an average of 9,434,000 bushels.

The United States oats crop now promises to be 1,500,000,000 bushels compared to 1,587,286,000 bushels in 1917, while Kentucky oats crop now promises a total yield of 8,250,000 bushels, compared to 8,060,000 bushels in 1917.

Hay promises a good yield from an increased acreage.

Fruit in Kentucky suffered from the severe winter. Many peach trees were partially or entirely killed by cold and raspberries and blackberries suffered similarly, though not so seriously. Apples promise a fair crop, pears from one third to one half crop.

IN LETTERS TO SOLDIERS WRITE ADDRESS IN FULL.

The British postal authorities have warned the British public against using the abbreviation "A. E. F." on letters addressed to men in the American army owing to the likelihood of such letters getting misdirected to the Australian forces.

"The Postmaster General strongly advises the public when writing either to Americans or Australians to write the address in full," says an official warning placarded in all post-offices in Great Britain.

\$100—REWARD—\$100

The readers of this paper will be pleased to learn that there is at least one dread disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional condition requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts through the blood on the mucous surfaces of the system, thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative power of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
